ヘルシング HELLSING

5

Intense and full of psychotic action, *Hellsing* continues its fevered pitch into a dark chaos that defies human logic. Human? Well, there are only a few left in the story line, as the emerging Millennium Project, an army of Nazi undead, is unleashed upon the world. What will surely ensue is a war of blood and nostalgia, with a coolly gothic style and increasingly frenetic pace. Envision the Hindenburg, old sharpshooter rifles, and throwback uniforms, mixed with new jet technology and incredibly bold vampires. *Hellsing* is piles to the sky with radical mysticism and scary apocalypse . . . and it's fun as Hell!

Also a popular anime series, *Hellsing* entertains with a grotesque, yet terribly funny personality, introducing the reader into the crazy brain of creator Kohta Hirano.

This collection is translated into English but oriented in right-to-left reading format, as originally published.
